

Repair Request #8420

ID	#8420
Kind	Maintenance
Campus	WPB
Requester	Aliya
Description	I wanted to follow up regarding the drinking water arrangement for the Upper House. I was able to bring water temporarily; however, the supply has now run out, and transporting and replenishing it on an ongoing basis has become quite challenging due to the weight and logistics involved. I recall being informed that a water filtration system would be installed in the Upper House, and I wanted to check if there is an update on the installation timeline. Having a permanent water source in the building would greatly support both staff and Children. We have no water for Next week
