| <b>Description</b>   | <p>We would like to make note of an issue with the floor in the Nido II classroom, specifically in this corner. We have noticed that water appears to seep into the area from the playground, especially when it rains. When the floor is stepped on, we can notice moisture coming up through the flooring.</p> <p>We understand that this may not be an easy issue to repair, but we wanted to bring it to your attention so it can be inspected and documented. We have cleaned and dried the area using the large fans we normally use when classrooms experience flooding.</p> <p>Additional Note: With inspection coming up soon, we are working on organizing and preparing the classroom and wanted to make sure this issue was documented as well.</p> |
